Combi unwinding device
universally usable for every
available spool type

Nozzle Extensions
as angle- or straight extension

Wires
tested and certified wires for
trouble-free spray process

We can do more than standard!

It is precisely the special challenges of arc metal spraying technology that we enjoy most.

Many years of experience paired with the highest quality standards make it possible to inspire the world with the most reliable systems.

The wishes of the customers are our top priority
- that is why we cannot do only standard!

The modular delivery program and the high flexibility make it possible to produce systems tailored to the respective application without much effort. **VARIETY WITH SYSTEM**

For the OSUCAS-Team, personal contact with customers and partners, spare- and wear-parts from stock, on-site service, repairs, maintenance contracts and fast support have top priority.

That is why we have satisfied customers all over the world and we are excited every day to be able to meet their diverse requirements.

Challenge us too!
